June 25th 2026

Dear Sargeant Bay Society Bursary Committee,

I am writing to express my gratitude for the incredibly generous support you and the Sargeant Bay Society have given me in pursuing my academic and post secondary dreams, it truly means the world to me and makes a huge positive difference in my life.

I will be using these funds to help pay for my tuition and fees at the University of Victoria while pursuing an undergraduate degree double majoring in Environmental Studies and Geography. I recently registered in all of my courses, and am eagerly looking forward to beginning this September!

I fondly remember stopping by Sargeant Bay Park on my way home from Sechelt with my Mum on multiple occasions throughout my high school journey, what a beautiful reserve! Thank you so much for conserving and protecting this land, it is such important work that I hope to support as I grow in my environmental career.

From the bottom of my heart, thank you for your support. As you may have noticed, I have decorated this letter with some kelp... one of the areas I am most excited to study and explore throughout university. I appreciate you so much for helping me get there.

Sincerely,

Poppy Mackenzie Arnet
